

IBM, Cognizant & EvolutionIQ Discuss Claims AI

written by Jason Kapler | April 27, 2021

This week, our Head of Sales, Andrew Naoum sat down with Meera Krishnamurthy, Global Head of Insurance at Cognizant, Annap Derebail, Global Insurance Industry CTO at IBM and Head of Research at 11:FS and host of the Insurtech Insider Podcast Sarah Kocianski to discuss the developments around AI in claims organizations. Listen to the group discuss the use of AI in the claims, how to pair tech and human resource and what great looks like for claims organizations adopting this technology over a 45 minute discussion at the link below.
